

ArmaniEnglish نمونه 1 IELTS writing task 1 از وبسایت

The maps below show the changes that have taken place at West park Secondary School since its construction in 1950.

The three maps depict several significant changes which happened in West Park Secondary School during a period of 60 years since 1950.

Overall, the area underwent considerable changes. It is noticeable that houses and the farmland vanished for the development of other purposes.

In 1980, houses located on the left of the school were demolished and converted into the car park and a science block was erected. Meanwhile, the farmland behind the initial houses was redesigned as the sports field.

By 2010, while the science block remained unchanged, the car park was extended and occupied the whole area of the sports field. In addition, the playground whose original size was kept until 1980 shrank to give place to the sports field. These two buildings were both situated behind the school. The main building of the school still remained in the same position facing the main road over 60 years.
